The Mind / Body Debate

What is consciousness?

Our last meeting was dedicated to spirits, ghosts, NDE, and the paranormal. The discussions led us to talk about quantum physics and consciousness. Let's continue this exploration regarding theories of consciousness; from Fundamental Materialism to Metaphysical Idealism (Dualism), and all else.

Before coming, watch a YouTube video, read a book, explore the web, gather your thoughts, but come prepared to contribute something interesting you know or learned related to Consciousness, Dualism, Determinism, and/or other concepts or philosophies about the mind / body debate.

Come join us for a lively exploration into this interesting topic and a social drink or two afterwards!
